(D) ○　Frictional Force - (Optional 1)

Question No.51　　　　　　　　　　　　　　　　　　　　　　1.00

A question has been given in this question and a statement related to it. Read the passage carefully and review the statement based on it.

Deficiency in climate change, agricultural land and other resources are important reasons for the decrease in food items, due to which it is becoming difficult for people of any planet to meet the food requirement (hunger). So on Wednesday, the Food and Agriculture Organization of the United Nations appealed to encourage new techniques and policies to 'zero down the index of hunger'. It has been said in the report that due to population growth, demand has also increased on the affordable prices of nutritious food, but due to the extreme exploitation by man, due to the situation of land, water and climate change, due to the miserable condition of natural resources, It is impossible to supply it.

Millions of people are far from access to food security. They are far away from access to adequate and cheap food, which can have many causes but poverty is the biggest reason for them. But other causes of hunger problems include civil strife and many other types of war. Yemen, where the dead from an aid group Save the Children says that there are about 85,000 child hunger under the age of 5 years there, killed thousands of civilian air strikes by coalition Saudi leadership

statement: United The Food and Agriculture Organization of the nation is working to speed up the index of hunger in the world rapidly.

Select the most suitable option below.

A-statement is absolutely true.

B-Query is probably true.

C-statement can not be reviewed.

D-statement is completely false.

(A) ○　B - (Alternative 2)

(B) ○　**A - (Alternative 1)**

(C) ○　D - (Alternative 4)

(D) ○　C - (Alternative 3)

Question No.52　　　　　　　　　　　　　　　　　　　　　　1.00

Find the next number in the following series:

18, 20, 26, 38, 58,?

(A) ○　98 - (Optional 1)

(B) ○　**88 - (Optional 3)**

(C) ○　92 - (Alternative 2)

(D) ○　104 - (Alternative 4)

Question No.53　　　　　　　　　　　　　　　　　　　　　　1.00

Read the given information carefully and answer the questions related to it.

Eight children A, B, C, D, E, F, G and H are sitting outside on a circular table thus facing the gap between each of them. (Not necessarily their order)

i) A and H are sitting in front of each other.
ii) D is sitting in the second position on the right of H, which is sitting right next to C.
iii) E is not sitting next to D or A.
iv) B is sitting in the middle of the middle of A and E and on the right side of F.

If the location of D is replaced by the position E and the position of A and the location of B is shifted to H, then which statement given in the new sequence will be correct?
(A) ○ A sits at the third position on the right of F - (Alternative 1)
(B) ○ F and H are seamless - (Alternative 2)
(C) ○ G and C sit opposite to each other - (Alternative 4)
(D) ○ **Sits between B, F and C - (Optional 3)**
